stretches, $y = L1$ and $y = L2$, with a parabola of the form $y = f(x) = ax^2 + bx + c$, where x and $f(x)$ are measured in meters.

Project: Designing a Roller Coaster - AP Calculus | Wyzant ...
 $y' = 2ax + b$. The origin is also on the parabola and at $x=0$ the tangent line has slope 0.7. Then $c=0$, so the parabola becomes $y = ax^2 + bx$, with the same derivative. So then $0.7 = 2a(0) + b$ <-- first derivative of the parabola must be 0.7 at $x=0$. $b = 0.7$. The updated equation of the parabola is now $y = ax^2 + 0.7x$.

reflects the growing community of Maple users around the world. This volume contains the contributed papers. A careful inspection of author affiliations will reveal that they come from North America, Europe, and Australia. In fact, fifteen come from the United States, two from Canada, one from Australia, and nine come from Europe. Of European papers, two are from Germany, two are from the Netherlands, two are from Spain, and one each is from Switzerland, Denmark, and the United Kingdom. More important than the geographical diversity is the intellectual range of the contributions. We begin to see in this collection of works papers in which Maple is used in an increasingly flexible way. For example, there is an application in computer science that uses Maple as a tool to create a new utility. There is an application in abstract algebra where Maple has been used to create new functionalities for

computing in a rational function field. There are applications to geometrical optics, digital signal processing, and experimental design.

A student projects book to be used as a complement to any calculus text. Contains activities that can be done in class or as homework and large projects for the students to work on (usually in groups) outside the classroom. Materials are excellent for cooperative learning. Most activities and projects require no technology and the few that do are not technology specific. Students actively participate in their learning. Emphasizes the role of calculus as a tool for understanding the world with modeling as a central theme.
