Fluid In Tuff*

Changing Transmission Fluid
In Tuff Transmission fluid
should be changed based on
the vehicle manufacturer's
recommendations. If you
can't find that interval,
every 30,000 miles is a safe
bet. An automatic
transmission that shifts
roughly, slips or is noisy
might also benefit from a
transmission fluid change. A
low fluid level can also
cause these drivability
issues, so check the level
before you replace the
fluid. How to Change

Changing Transmission Fluid In Tuff Torq K574

Tuff Torq recommends a 5w50 synthetic oil for the K46 boxes. Same basic unit (I think). There are a couple magnets inside the case on these and can have some serious build up on them. Best to remove, split the case and clean out the insides. Usual recommendation is to drain the oil, measure what came out, refill with like amount.

information for ...

Also, some auto parts transmission additives aimed at the old worn car transmission crowd have shown up with good reports. Tuff Torq recommends synthetic 5w-50 oil as replacement so balancing an increased viscosity against such a thin oil as 5w probably needs to be conservative toward being thin for flow reasons.

Fluid | Advance Auto Parts*
My John Deere has the K62
transaxle and there was some
confusion as to which fluid
to use, J20C HY-GARD High
Viscosity or 5W-50 motor
oil. I emailed Tuff Torq and
they said either will work
fine but the J20C HYGARD
will work better in the
cooler months. I went with
Napa J20C Heavy duty tractor
and transmission fluid.
