Closing The Gap takes a deeper look into the Gang Stalking phenomenon and how community notification programs are being used and abused to destroy the lives of innocent citizens. These programs are being used to create a system of state control and conformity. The citizens of democratic countries have been mobilized as weapons for the state. They are being used as a clearing house for those who the state see as unfit, and undesirable. The state in every community, workplace, and most families have created a disturbing, interconnected system of surveillance, and control. Once targeted, the person in question is blacklisted. Then those around the target are categorically enlisted into the states monitoring, supervision, and annexing of the target.

What if you had been singled out for an experimental mind control program without your knowledge? Would you even realize what was happening to you? Dr. Cherubini's book traces his own gradual discovery of his inclusion in what has been called "the most atrocious criminal program" the world has ever known. He wishes to educate others about this covert enterprise, because, left unchecked, it will surely erode what is left of American democracy.

If you are targeted and gang stalked, I do not need to give you a definition. You already know what it means to live it. What I can do is give you information on what I have personally discovered about who and what is behind this, and advise you with techniques I have used to counteract it. Stay strong, and know, there are things you can do.

A book that speaks directly to the family and friends of targeted individuals and which easily explains why people are targeted, how they are targeted, what the purpose of the targeting is, and what to do about it.

Organized stalking is carried out by an enthusiastic and structured group that has cruel intentions: stalk, harass, injure, financially ruin, and mentally crumple human prey until incapacitation occurs. What sets this crime apart is that innocents are picked off the street. There is no getting away from the stalkers and no getting away from the unusual technology that is used to take over someone's life. "For

the first couple of months," says June, "I thought it was a sick game. Now that I've been tormented for years, well, it's clear that organized stalking is a sophisticated crime that follows a step-by-step process to leave the victim as bare and isolated as the dead tree on the cover. He or she may still be standing, but that's about it. "I'll sum it up this way. Veiled intimidation ensures that targeted individuals are viewed by the public as free people, which they are not. They are playthings to their controllers. Hostages in plain sight. Victims are quite literally owned yet have limited chance of rescue because their desperate circumstances are misunderstood. Some die from the violence. Some die from suicide. And the rest merely exist." Organized stalking is worldwide and is called gang stalking in some areas. The electronic harassment that accompanies organized stalking is also known as covert harassment.

Random Violence is a deft and thought-provoking exploration of the ways we talk about—and why we worry about—new crimes and new forms of victimization. Focusing on so-called random crimes such as freeway shootings, gang violence, hate crimes, stalking, and wilding, Joel Best shows how new crime problems emerge and how some quickly fade from public attention while others spread and become enduring subjects of concern. Best's original and incisive argument illuminates the fact that while these crimes are in actuality neither new, nor epidemic, nor random, the language used to describe them nonetheless shapes both private fears and public policies. Best scrutinizes the melodramatic quality of

the American public's attitudes toward crime, exposing the cultural context for the popularity of "random violence" as a catch-all phrase to describe contemporary crime, and the fallacious belief that violence is steadily rising. He points out that the age, race, and sex of homicide victims reveal that violence is highly patterned. Best also details the contemporary ideology of victimization, as well as the social arrangements that create and support a victim industry that can label large numbers of victims. He demonstrates why it has become commonplace to "declare war" on social problems, including drugs, crime, poverty, and cancer, and outlines the complementary influence of media, activists, officials, and experts in institutionalizing crime problems. Intrinsic to all these concerns is the way in which policy choices and outcomes are affected by the language used to describe social problems.

The Supplemental Victimization Survey identified seven types of harassing or unwanted behaviors consistent with a course of conduct experienced by stalking victims. The survey classified individuals as stalking victims if they responded that they experienced at least one of these behaviors on at least two separate occasions. In addition, the individuals must have feared for their safety or that of a family member as a result of the course of conduct, or have experienced additional threatening behaviors that would cause a reasonable

You know what's wrong with the world? Too many assholes & not enough ways to get even! If your boss is bearing down or your next door neighbor's annoying, whatcha gonna do? If you retaliate, it could cost you your job or land you in jail. Now there's a safe, effective way for you to get even without putting yourself in any danger. It's called "gaslighting," & it's guaranteed to turn your target's life upside down. "Gaslighting" means to drive someone crazy. It comes from the 1944 film *Gaslight*, in which a husband convinces his wife she's losing her mind. Gaslighting is the most potent form of psychological warfare you can use without a license. In *Gaslighting: How To Drive Your Enemies Crazy*, Victor Santoro (The "Godfather of Harassment") shows you how to destroy your target's confidence, self-esteem & reputation. Through a series of small incidents, your target gets progressively more confused, until he's "reduced to a shapeless mass of shivering, quivering jelly." Some of the tactics covered include: Collecting information on your target Preparing for a gaslighting attack Creating tension, anxiety & sleeplessness Messing with your target's car, telephone & mail Gaslighting at your target's workplace & home Turning neighbors & co-workers against the target Covering your tracks And much more. Gaslighting will show you how to cause disorientation, get your target off balance, & build up his paranoia. Finally, you completely annihilate his reputation, leading to personal disasters such as job loss, divorce,

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.
