'Designa' brings together six bestselling visual arts titles, each of them a bestseller in their own right. Each title features a collection of world-class reference material, with super-clear high-resolution old-style graphics printed in 13 different ink colours.

Have you ever stared at patterned wallpaper and wondered how it was designed? Been captivated by some priceless Celtic art? Or boggled at a beautiful Islamic pattern? Have you ever stepped back and thought about the illusion of reality your senses create for you? Or pondered the symmetries which inform your feelings of what seems right? Is there a Golden secret, revealed by nature herself, which is common to all of the traditional arts? Packed with information and exquisite illustrations by more than twelve expert authors, Designa is the ultimate sourcebook for visual artists and designers of every kind.

Logo design titles continue to sell the most copies of all graphic design subjects. This hard-working title examines 100 logo designs by illustrating how and why the design works. Sidebars compare and contrast rough drafts of popular logos with their final versions, and short tips address issues such as testing designs, sourcing inspiration, and typography. As well, the evolution of well-known logos are traced by examining why design changes were made and how those changes benefited the client and were successful on the market.

Across the Islamic world, illuminating Korans from Morocco to Malaysia, and adorning mosques, mausoleums and palaces, are hidden some of the most exquisite geometrical devices ever conceived by man. In this excellent little book, geometer Daud Sutton unravels the mystery of Islamic patterns, explaining where they come from, how to draw them, and hinting at the Divine messages they encode. Your success as a fitness professional depends on your ability to reliably deliver results to clients. In Secrets of Successful Program Design: A How-To Guide for Busy Fitness Professionals, noted fitness and program design expert Alwyn Cosgrove and his director of programming, Craig Rasmussen, share Alwyn's proven system for creating programs that take clients from where they are to where they want to be. You'll learn how to properly assess a client and design the most effective program based on their individual goal—whether that is fat loss, muscle and strength building, or improved overall

conditioning. You'll also learn how to customize the training experience of your client on the fly, effectively progressing and regressing exercises according to day-to-day fluctuations in abilities and needs. This will ensure you are delivering the best results possible for each client every time they train. This guide to building training programs is supplemented with a selection of predesigned workouts that will draw on your skills for progressing and regressing exercises, saving you valuable time and energy while still allowing you to produce a personalized experience for your client. A reliable system-based approach to program design that consistently delivers results to every client—regardless of demographic profile, ability, or goals—will set your training business up for success in the incredibly competitive fitness market. CE exam available! For certified professionals, a companion continuing education exam can be completed after reading this book. The Secrets of Successful Program Design Online CE Exam may be purchased separately or as part of the Secrets of Successful Program Design With CE Exam package that includes both the book and the exam.

From the co-founders of Havenly comes “a perfect read for anyone looking to infuse more personality and style into their space—on their own time and budget, and in their own unique way” (Rachel Zoe). “Not only do Lee and Emily unpack all their tips for creating a space that looks as good as it feels, but they do it in a way that is made for real-life application.”—Bobby Berk, design expert and host of Netflix's *Queer Eye Interior* design can be daunting, and as a result, many of us never even attempt to design our own homes. In *Design the Home You Love*, Havenly founders Lee Mayer and Emily Motayed break down the ambiguous world of home design. First you learn how to identify your own style (whether you're a fan of Parisian Modern or California Casual) and then how to incorporate furniture that matches your style and fits your budget. *Design the Home You Love* takes you step-by-step and room-by-room through each part of the house to help you fulfill your home's potential. Whether you're looking to give your home a complete makeover, spruce up your rental apartment, or merely take your living room from blah to fab, Lee and Emily bring fresh ideas, advice, and inspiration to the table. Illustrated with eye-catching photography and livable inspiration from real-life clients, this is the interior design book that finally makes it possible for us all to achieve our design goals.

The Quadrivium consists of the four Liberal Arts of Number, Geometry, Music, and Cosmology, studied from antiquity to the Renaissance as a way of glimpsing the nature of reality. They synthesize number, space, and time. Geometry is number in space, music is number in time, and the cosmos expresses number in space and time. Number, music, and geometry are metaphysical truths, good and beautiful everywhere at all times. Life across the universe investigates them. They foreshadow the physical sciences. This is the first volume to bring together the Quadrivium for many hundreds of years
