The texts presented in Proportion Harmonies and Identities (PHI) - INTELLIGENCE, CREATIVITY AND FANTASY were compiled with the intent to establish a multidisciplinary platform for the presentation, interaction and dissemination of research. The aim is also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different visions relevant to Architecture, Arts and Humanities, Design, Engineering, Social and Natural Sciences, and their importance and benefits for the sense of both individual and community identity. The idea of modernity has been a significant motor for development since the

Western Early Modern Age. Its theoretical and practical foundations have become the working tools of scientists, philosophers, and artists, who seek strategies and policies to accelerate the development process in different contexts.

Reviewing the use of natural light by architects in the era of electricity, this book aims to show that natural light not only remains a potential source of order in architecture, but that natural lighting strategies impose a usefully creative discipline on design. Considering an approach to environmental context that sees light as a critical aspect of place, this book explores current attitudes to natural light by offering a series of in-depth studies of recent projects and the particular lighting issues they have addressed. It gives a more nuanced appraisal of these lighting strategies by setting them within their broader topographic, climatic and cultural contexts.

Il volume illustra la struttura tematica, l'organizzazione didattica, i luoghi e i progetti del seminario internazionale di progetto partecipato ARCILAB12. L'iniziativa organizzata dalla scuola di Architettura dell'Università di Cagliari si è svolta nel 2012 nei centri abitati di Ales, Morgongiori, Pau, Usellus e Villa Verde nell'ambito del programma transfrontaliero Marittimo Italia-Francia ACCESSIT finanziato dalla Regione Sardegna e indirizzato alla definizione di linee guida per i progetti per i paesaggi archeologici sul territorio regionale con specifico riferimento al miglioramento dell'accessibilità del patrimonio culturale. Sono state esplorate le potenzialità della valorizzazione e del miglioramento della fruizione di siti significativi sotto il profilo archeologico e paesaggistico dei territori del monte Arci, attraverso l'elaborazione di un progetto di rete territoriale e la costruzione in scala reale di un prototipo per ognuno dei centri coinvolti. L'obiettivo del seminario consiste in

un'esperienza didattica complessa in cui la conoscenza dei luoghi e il progetto trovano sintesi convergendo nella pratica del costruire. Carlo Atzeni È dottore di ricerca in Ingegneria Edile e professore associato di Architettura Tecnica presso il DICAAR dell'Università degli Studi di Cagliari. Alla Facoltà di Ingegneria e Architettura di Cagliari è coordinatore del Corso di Studi in Scienze dell'Architettura; dal 2009 è coordinatore scientifico del workshop internazionale di progetto ARCILAB. I suoi principali campi di studio e ricerca sono: il recupero e riqualificazione dell'architettura storico-tradizionale del Mediterraneo, il progetto di architettura contemporanea nei contesti storici consolidati e negli ambiti di margine a forte connotazione rurale. Le sue esperienze di ricerca più significative sono legate allo studio dell'architettura di base in Sardegna, alla redazione dei Manuali del recupero dei Centri Storici della Sardegna e dell'antica Casbah di Dellys in Algeria, all'indagine sulle nuove forme di habitat per i margini dei centri abitati delle aree interne della Sardegna. La sua attività di ricerca applicata al progetto si è distinta attraverso numerosi premi e menzioni in concorsi internazionali e nazionali di architettura.

Esta publicación propone al lector visitar el mundo doméstico de la modernidad. Una visita que hace emerger una nueva modernidad todavía por descubrir, a la espera de quien quiere lograr su tiempo próximo. Estas nueve visitas logran la atractiva invitación al redescubrimiento de una domesticidad oculta tras tanta celebración de fin de siglo, desde las exposiciones de vivienda de los años 20 en Alemania hasta los laboratorios domésticos en la arquitectura japonesa. Un

descubrimiento que logra en su pequeña escala el conocimiento de una nueva forma de dar habitación y con ella habitar el mundo entero.

????????????????????????????????????

Pamphlet Architecture was begun in 1977 by William Stout and Steven Holl as an independent vehicle for dialogue among architects, and has become a popular venue for publishing the works and thoughts of a younger generation of architects. Small in scale, low in price, but large in impact, these books present and disseminate new and innovative theories. The modest format of the books in the Pamphlet Architecture Series belies the importance and magnitude of the ideas within.

????????????????????????????????

A thematic overview of the work the minimalist architect and designer.
