How to Build an Engine Math Spreadsheet
January 24, 2015 by Muscle Car DiY Setting up a PC-based spreadsheet to hold your important engine math formulas is a handy way to keep them all together and use them to calculate anything you want to know just by inputting the appropriate values.

How to Build an Engine Math Spreadsheet
Engine Building Calculators & Tables .
Determining the parts that best suit your engine require some complex equations. To make that math easier, we have a section of calculators that do the hard part for you. We have also provided some tables of common engine combinations that may help you compare and contrast different combination.

Engine Building Calculators & Tables - HiPo Parts

Engine "Rough" Horsepower By Bowling This is simple determination of rough engine horsepower output based on a "mean" cylinder compression ratio. Use this for extreme ballpark use only. Remember, this is one of those equations that work for some cases and leave you scratching your head for others.....

TEAM BUICK Engine Build Sheet

Anyone have or know where I could get a hold an engine builders spec sheet (Blank Form) that is used to record all the vital measurements and specs when building an engine? I'm hoping to find something that allows some detail not just general stuff. I have seen a few but they were pretty crappy. Maybe someone out there has made there own form and is willing to share a blank copy.
