BSc (Hons) Ecology & Wildlife Conservation | Bournemouth

According to the BLS, most wildlife educators who teach wildlife conservation at the collegiate level hold a minimum of a doctoral degree in the field, with a master's degree being the second most common. However, an undergraduate degree related to wildlife management, zoology, animal science, and related fields may be enough to find a job educating others about wildlife conservation at national parks and zoos. While practical experience in the industry may sometimes substitute academic ...
