Grant Morrison and Mark Millar's run with the Fastest Man Alive continues here! Collects THE FLASH #136-141 as well as a story from SECRET ORIGINS #50.

DC Comics collects two fast-paced tales by Grant Morrison (BATMAN, FINAL CRISIS) and Mark Millar (CIVIL WAR, FANTASTIC FOUR, THE ULTIMATES), two of comics' greatest storytellers. First, in the story "Human Race," a powerful alien entity called Krakkl amuses himself by pitting the fastest beings in the universe against one another in races through space and time, with the racers' homeworlds at stake. Then, a powerful being called Black Flash arrives on the scene - and wherever he appears, a super-speedster dies!

In this acclaimed collaboration, iconic comic book creators Grant Morrison (MULTIVERSITY) and Mark Millar (THE AUTHORITY) conspire to put the Scarlet Speedster through the most grueling and life-changing challenges they can conjure up! First, the Flash must battle against every hero's nightmare—a sentient super-costume that consumes the life force of anyone who wears it. Then, the Fastest Man Alive must find a way to counter his old foe the Mirror Master before everyone he cares about is reverse-aged out of existence. After that, Wally West barely has time to breathe before he's forced to enter a race spanning all of time and space against an unbeatable opponent—with the loser's world to be erased from existence! Of course, with friends like Jay Garrick, Max Mercury, and Jesse Quick by his side, the Keystone Comet can face down nearly any threat imaginable—but not even an entire team of speedsters can outrun death itself. And when the Black Flash comes for him, Wally will have to go deeper into the Speed Force than he's ever dared—nor lose everything he holds dear! Morrison and Millar are joined by artists Paul Ryan, John Nyberg, Ron Wagner, Pop Mhan and many more for a celebrated run with comics' most celebrated runner in THE FLASH BY GRANT MORRISON & MARK MILLAR—collecting THE FLASH #130-141, GREEN LANTERN #96 and GREEN ARROW #130.

DC Comics collects a fast-paced tale by Grant Morrison (BATMAN, FINAL CRISIS) and Mark Millar (CIVIL WAR, FANTASTIC FOUR, THE ULTIMATES), two of comics' greatest storytellers. The Fastest Man Alive meets a new and deadly challenge in the form of the villain known only as The Suit . . . a challenge that leaves him with two broken legs! Confined to a wheelchair, The Flash's hometown of Keystone City begins to attract villains from across the nation. Can the combined strength and speed of heroes including Max Mercury, Jesse Quick, Impulse and others stop the criminals from taking over?

"If a mother can kill her own children, then what can be next?" Mother Teresa once asked. What indeed? Once the value of human life has been depreciated, as in Roe v. Wade and the Baby Doe Case, no one is safe. Once "quality of life" is substituted for the absolute value of human life itself, we all are endangered. Already respected scientists are calling for a time period following birth (a week or so) to decide if newborns have "sufficient quality of life" to be allowed to live. Already committees of "medical professionals" would like to decide whether the "quality of life" of the elderly or anyone seriously ill is high enough to allow them to go on living. In this moving book, the renowned pediatric surgeon and Surgeon General of the United States, C. Everett Koop, M.D., joins with one of the leading Christian thinkers of our day, Francis A. Schaeffer, to analyze the widespread implications and frightening loss of human rights brought on by today's practices of abortion, infanticide, and euthanasia. They see the present as a crucial turning point. Choices are being made that undermine human rights at their

most basic level. Practices once labeled "unthinkable" are now considered acceptable. The destruction of human life, young and old, is being sanctioned on an ever-increasing scale by the medical profession, by the courts, by parents, and by silent citizens. "But what can I do?" you ask. "I'm just one person." You can start by reading this book. Yes, it will shock you. And it will make you weep. But it will also help you see how you can actually make a difference.

Robert J. Sawyer's award-winning science fiction has garnered both popular and critical acclaim. The New York Times Book Review called Frameshift "filled to bursting with ideas, characters and incidents." His novels are fixtures on the Hugo and Nebula ballots. Sawyer now brings us Flashforward, the story of a world-shattering discovery. In pursuit of an elusive nuclear particle, an experiment goes incredibly awry, and, for a few moments, the consciousness of the entire human race is thrown ahead by about twenty years. As the implications truly hit home, the pressure to repeat the experiment builds. Everyone wants a glimpse of their future, a chance to flashforward and see their successes ... or learn how to avoid their failures. Winner of the Aurora Award and the basis for the hit ABC television series. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In a book that marks the author's 20th year of uncovering suppressed information, he takes the manipulation of the human race and the nature of reality to new levels of understanding and calls for humanity to rise from its knees and take back the world from the sinister network of families and non-human entities that covertly control us from cradle to grave. Original.

The Human Race' part 1! A pair of hostile aliens forces Wally to race Kwyzz, a strange childhood friend of Wally's that came through the radio from another world.
