Leadership and governance - what to consider
The principle of leadership relates to the
ability of the organisation to set the tone
from the top by clearly communicating the
company strategy, culture, values and
behaviours, and by demonstrating how these
are embedded throughout the organisation.

Strong leadership and governance is the foundation of our firm: determining our purpose and strategy; setting the tone for ethical and responsible decision-making throughout the business; and ensuring transparency and accountability to external stakeholders and to our people. Our leadership is shaped to meet continuing market challenges and to prioritise our continued investment in quality and our people.

Leadership and governance | Deloitte UK
The leadership and governance section includes a policy index and introduces the components and related indicators. It describes possible sources of information and available measurement strategies, and proposes core and supplemental indicators that may be used depending on the country health system attributes and needs.

Governance & Leadership | PHCPI
The chapter investigates the role of leadership in good governance and the relationship between leadership and institutions. The important question of territorial governance is also covered, as are the pressures that geography puts on leaders in all spheres of action. The main skills introduced derive from Theory U and
