Century Station | Los Angeles County Sheriff's Department

On December 3, 2018, I was sworn into office on a promise to Reform, Rebuild, and Restore the Los Angeles County Sheriff's Department. After twenty-two months, one pandemic, civil unrest, an openly hostile board of supervisors, and dishonest LA Times coverage, I can report that we have done exactly that: reform a massive operation where previous sheriffs failed.

rush money, at odds with Mexican bandits, and teeming with forty-niners and confederate sympathizers chronicles the chaotic early days of Los Angeles, which boasted the highest homicide rate in America by 1850. From profiles of the frontier-style lawmen hired to stop the initial mayhem to an analysis of the city's modern sheriff's office—the largest in America—this book draws comparisons between the uproar of the early days, the racial tensions that erupted during the Watts riots, and the safety issues that preoccupy the police force today.

to seasoned patrol sergeant. His candid memoir chronicles the personal experiences of police work—the tedium of guarding jail inmates, the consternation of shoot/don't-shoot scenarios, the trauma of being wounded in the line of duty—and offers an insider's view of iconic moments in law enforcement, including the capture of “Night Stalker” Richard Ramirez and the 1992 L.A. Riots. Along the way he examines a profession increasingly beleaguered by inimical agendas, administrative cowardice and fiscal restraints.

This report concludes our year-long look at the LASD's internal investigations. In the previous report, the procedures of the receipt, investigation, and resolutions of complaints at the station level were

examined. This study breaks ground as a large-scale study of self-regulation within a major urban law enforcement agency. The second half of this report is a status report on recommendations made in our previous report.

Stories & Memories from the Life of Leo V. Chaney

This report looks at the ways in which training is provided to deputies with respect to the tactics and skills necessary to make sound judgments in stressful and fast-paced environment of a patrol assignment. Without adequate training, officer and citizen safety is jeopardized and the risk management strategies collapse.

Next the report looks at specific training provided on new LASD policies and the way in which the Department can effectively communicate its commitment to those new policies. In particular the 2004 foot pursuit policy was contrasted with the Department's effort to educate deputies on the amended policy for shooting moving vehicles after the Compton shooting. Some preliminary observations concerning two weeks of major inmate disturbances in the Los Angeles County jails appears that the deputies and command staff ably handled the disturbances. Finally, the report contains tables with the most recent data on shootings and uses of force by LASD.

This groundbreaking history of how American police forces have been militarized is now revised and updated. Newly added material brings the story through 2020, including analysis of the Ferguson protests, the Obama and Trump administrations, and the George Floyd protests. The last days of colonialism taught America's revolutionaries that soldiers in the streets bring conflict and tyranny. As a result, our country has generally worked to keep the military out of law enforcement. But over the last two centuries, America's cops have increasingly come to resemble ground troops. The consequences have been

dire: the home is no longer a place of sanctuary, the Fourth Amendment has been gutted, and police today have been conditioned to see the citizens they serve as enemies. In *Rise of the Warrior Cop*, Balko shows how politicians' ill-considered policies and relentless declarations of war against vague enemies like crime, drugs, and terror have blurred the distinction between cop and soldier. His fascinating, frightening narrative that spans from America's earliest days through today shows how a creeping battlefield mentality has isolated and alienated American police officers and put them on a collision course with the values of a free society.
