useful, solving problems, and working hard—as opposed to being big and strong—will inspire young readers.

—School Library Journal —Inspired by this real-life mouse, Kelly's first children's book tells the story of Meteor, a lightly anthropomorphized rodent who turns his tininess into an advantage when an important key gets stuck in a crack between two monitors—textured images and vivid portraits that make it absolutely clear that space travel is a larger-than-life adventure. —Publishers Weekly A heartwarming picture book tale of the power of the small, from bestselling author and retired NASA astronaut Commander Mark Kelly. Astronaut Mark Kelly flew with "mice-tronauts" on his first spaceflight aboard space shuttle Endeavour in 2001.

Mousetronaut tells the story of a small

While in space, the astronauts are busy with their mission when disaster strikes—and only the smallest member of the crew can save the day. With lively illustrations by award-winning artist C. F. Payne, Mousetronaut is a charming tale of perseverance, courage, and the importance of the small!
