Stripping a Myford ML10 Lathe  
(Speed 10) Headstock - Taper  
Roller Bearings: Two teeth were  
broken on the 65T backgear (bull  
wheel) of my ML10. To replace it,  
I had to strip the headstock right  
down to the spindle. It is a similar  
process to change the drive belt,  
so I did that as well. Once  
stripped, I found that grease  
had...

Remember that you can machine small parts on a large lathe, but not vice versa. Andrew. Mick B1: 27/07/2018 18:29:30: 1736 forum posts 91 photos: There are one or two quite serious drawbacks to the Myford 10s. I ran a Speed 10 for 15 years. It was a nice little machine and I enjoyed using it, BUT:- The worst possibly belongs more to castings suppliers who responded to the popularity of the 7 ...
