By contrast, extensive renovations under Part 11 of the Building Code must comply with section 3.8, if the proposed construction: (1) is within an existing suite area that is greater than 300 square metres (3,229 sq.ft.) of space; (2) involves installations of new interior walls/floor assemblies or new ceilings; and (3) is within a building's main floor area located within 200 mm (7.84 inches) of the nearby ground floor (or in a floor area that is accessible by an elevator from the buildings ...

Assessing Accessibility Under the Building Code, the AODA ...

The Building Code requires all buildings to be inspected during construction. In the case of factory-built buildings, quality control inspections and monitoring occur during the assembly of buildings and building components. A tiny home built off-site without CSA certification will likely not have had the appropriate inspections.
