Answers will vary. Gizmo Warm-up: Tick, Tock, Click 1. On the Pendulum Clock Gizmo, a pendulum swings back and forth. The second hand of the clock moves forward one tick every time the pendulum swings across. Open the Tools palette. Drag an arrow next to the pendulum bob as shown in the image at right. Click Play and watch as the bob swings away from the arrow then back to it. Click Mark time every time the bob touches the arrow. The numbers tell you how many seconds are between each click ...

Pendulum Clock.docx - Pendulum Clock Answer Key Vocabulary ...

The period is mostly determined by the length of the pendulum. The period increases as the pendulum gets longer, and decreases as it gets shorter. Therefore, making the pendulum shorter will speed up the clock. Correct Answer: C. She could shorten the length of the pendulum. Changing the mass of the bob has no effect on the pendulum period.
